Bisherige Aktivität in der GDCh und der Fachgruppe

- aktive Teilnahme an nationalen und internationalen Konferenzen zur Förderung der chemischen Kristallographie
- aktive Teilnahme am „Ersten Doktorandenseminar in chemischer Kristallographie!“ in Regensburg im Oktober 2024

Meine Kandidatur

Als Vorstandsmitglied der GDCh-Arbeitskreises Chemische Kristallographie ist es mein primäres Ziel, das Fachgebiet der Kristallographie voranzubringen. Zu diesem Zweck möchte ich die Zusammenarbeit zwischen Forschern fördern und dazu beitragen, dass das Fachgebiet in der breiteren wissenschaftlichen Gemeinschaft eine höhere Sichtbarkeit erlangt. Es ist mein Bestreben, die erfolgreichen Bemühungen des vorherigen Vorstands im Bereich der Öffentlichkeitsarbeit fortzuführen und die Kristallographie innerhalb der chemischen Gemeinschaft weiter zu etablieren. Darüber hinaus ist es mein Ziel, zu demonstrieren, dass die Kristallographie ein integraler Bestandteil der Chemie ist und wertvolle Einblicke in das Gesamtgebiet der Chemie liefern kann. Ich engagiere mich für die Förderung von Innovationen in den Forschungsmethoden, die Etablierung einer Plattform für den Austausch von Wissen, die Unterstützung junger Wissenschaftlerinnen und Wissenschaftler sowie die Sicherstellung, dass unsere Arbeit sowohl in der wissenschaftlichen Entdeckung als auch in der praktischen Anwendung einen nachhaltigen Einfluss hat.
