▶ AIM OF THE CONFERENCE

The **Tübingen Center for Academic Drug Discovery (TüCAD2)**, founded 2012, is part of the University's excellence strategy. TüCAD2 is closely connected to the Excellence Cluster iFIT, ICEPHA (Interfaculty Center for Pharmacogenomics) and recently to NCT-SW (Nationales Zentrum für Tumorerkrankungen-SüdWest) and focus on pharmacological validation of genetically identified targets. The strong translational focus brought four compounds until now "first into human". As a graduate/postgraduate teaching aspect, TüCAD2 organizes since 2019 a curriculum covering advanced medchem, preclinical development and fundraising aspects. As a new format, we will start now with a one-day event with case studies, presented by eminent drug discovery experts from both industry and academia.

This case studies highlight the successful application of medicinal chemistry approaches to the discovery of novel molecules as illustrative examples for young professionals.

▶ TOPICS

- **Medicinal chemistry case studies from leading drug discovery experts.**
- **Target Audience:**
 - Young professionals in drug discovery & medicinal chemistry (academia and industry)
 - PostDocs

▶ SCIENTIFIC COMMITTEE

M. Gehringer	University of Tübingen/DE
G.Hessler	Sanofi, Frankfurt (Main)/DE (Chairman of the GDCh division)
S. Laufer	University of Tübingen/DE
T. Pillaiyar	University of Tübingen/DE
K. Ritter	University of Tübingen/DE

▶ CONFIRMED SPEAKERS

M. Jung	Univ. of California, LA/USA (Plenary Speaker)
R. Giovannini	Boehringer-Ingelheim/DE
N. Halland	Sanofi/DE
L. van Hijfte	Symeres/NL
J. Mittendorf	Bayer/DE
G. Müller	SpiroChem/CH
F. von Nussbaum	Nuvisan/DE
K. Ritter	University of Tübingen/DE
